

Graphic Design & Copywriting

e-relationship[®]
Your 24/7 Digital Marketing Assistant!

E-Relationship knows that excellent graphic design communicates quickly, convincingly, and draws the reader's eye to key information within your message. By employing important psychological principles and design techniques, we produce effective designs that work to catch your target audiences' attention.

Let our professional graphic designers take the presentation of your business to a higher level and ensure that your brand's image is conveyed in a way that truly connects with your target audience most effectively.

To be successful, we need to know a bit about about you, so our services include a one-hour discovery call.

Copywriting

E-Relationship is happy to create text for your website, or advertising needs — based on your directive or our expert research into what you do. We write copy that resonates with readers and causes them to take action.

When it comes to your website and online advertising, we also analyze keywords per page or ad, producing high SEO results. Great SEO bridges the gap between the who-what-where-and-why of your company, and the single words and phrases your audience uses to search for what they are looking for.

Let us author unique and inviting verbiage to promote your business in a way that will truly engage your target audience!

To be effective, we need to know a bit about you, so our services include a one-hour discovery call.

For your website, we suggest copywriting for your *Home*, *Services*, and *About* pages.

For other advertising ventures, we simply need to narrow down your audience and where the text will appear (online ad, brochure, podcast audio ad script, YouTube ad, etc.) to most precisely match the branding delivery method.
